Relief Recipients To Receive Xmas Hampers

Foreman Given Wage Boost;
Ashman Given Report to
Council; Cafes to be Given
Inspection.

Regular meeting of the council was held on Monday evening. Present Mayor Antrobus, Councilors Cox, Ford, Jenkins and Ramsay.

Mr. H. Maslen, ashman, and his truck driver, were present to give council a report on ash collections. He stated that there was a number of west Coleman residents, particularly on the north side, who refused to have their ashes removed by him. He was told to hand their names to Constable Antle who would take immediate action. Last week they collected for the first time and managed to collect \$160. Many had asked them to call back for payment. There were approximately a dozen who refused payment stating they had paid Mr. Makin November ash fee in advance. Council was a little sceptical of this and an enquiry will be made. An agreement was signed by both ashman and council.

Council has been working on an Old Age pension boost for a local citizen. This party had been penalized from getting the full pension because her husband was in receipt of a life pension from the Workmen's Compensation Board. The husband is now on the verge of his 70th birthday and council was asked to ascertain all the particulars regarding the husband in order that the wife may have her pension appeal re-examined.

An appeal for aid was received from the Woods' Christian Home. \$10 was granted.

Council was told that the Sports' Association had engaged Mr. Bydens, sr, as care-taker of the open air skating rink. Council and Association will go 50-50 on expenses to the operation of the open air rink.

A complaint had been received regarding the condition of the road on seventh street, east. Works and Property committee was asked to make an inspection.

A complaint had been received from a local businessman regarding transient trucks soliciting business in town. It was revealed that the outside business houses had paid their 1943 licenses. A Mr. Freeman, clothes salesman, was revealed not to have received his 1943 license and Constable Antle was asked to see that he purchased the necessary license.

A complaint was received regarding one of the restaurants. Constable Antle was asked to contact the medical health officer and the two of them give the restaurant in question a thorough inspection and report back at the next meeting. It is expected that all restaurants in town will be given an inspection and a report sent to council.

The town foreman, Joe Malanchuk, has proven himself a most proficient employee. After a little discussion it was decided to raise his wages from \$110 a month to \$125 plus cost of living bonus. The boost went into effect in November.

The 35c additional cost-of-living bonus which came into effect on November 15 was authorized to be awarded to all the town staff.

The police committee recommended that Constable Antle work less hours and that he take off

DAN SPROUT WITH CLEVELAND BARONS

Dan Sprout, formerly with the local senior hockey team and for the past few years with Calgary Stampede and Buffalo, is now a member of the league leading Cleveland Buffalo. In a game between Cleveland and Pittsburgh last Friday night he scored a goal.

Stewart Milley Fatally Injured In Mine Accident

Passed Away at Calgary
Hospital Thursday. Funeral
Held at Calgary on Saturday.

Stewart Milley passed away in a Calgary hospital on Thursday morning as the result of injuries suffered in an accident Tuesday morning while engaged at work at international tipple.

The accident is said to have occurred at 7:50 Tuesday morning. Deceased along with two workers were working to re-rail a car of rock. They were using a pry for this job. Mr. Milley saw another car of rock come at a moderate speed towards them and warned his two workmen, stepping back himself to what he evidently thought to be a safe position.

The pry was left with one end under the derailed car and the other end in the air. The oncoming car hit the pry a glancing blow causing the upper end to swing round catching Mr. Milley on the side of the head. He was rushed to the local hospital and shortly after to Calgary where he died.

Funeral services were held on Saturday afternoon from the Jacques funeral home, with interment in Burnside cemetery, Calgary.

Deceased was born at Western Bay, Newfoundland, and 1907 came to Coleman from Springfield, N.S., entering the employ of International Coal Co.

Surviving are his wife, two daughters, Mrs. Douglas Taylor, Calgary; Mrs. Harry Tesson, Vancouver; three sons, John Milley, Queen Charlotte Island; George Milley, Vancouver; Gordon Milley, Coleman; one sister, Mrs. Lucy King, Springfield, N.S.; and four brothers, William Milley, Coleman; John Milley, Springfield; John Milley, New Waterford, N.S.; and Gideon Milley, United States; also two grandchildren.

GIBRALTAR MEDAL ARRIVES IN COLEMAN

Mrs. E. R. Kennedy received the handsome silver Gibraltar Medal awarded her husband, Spr. E. R. Kennedy, in the mail on Tuesday morning. The medal had been brought across the Atlantic by a fellow Canadian who arrived in Canada last week on the Lady Nelson.

Spr. Kennedy was one of the many Canadians who worked from March 1941, to March, 1942 as a rock miner at the famous British base. Shortly after his return to Britain he, along with his fellow Canadians who included Roach Cousins, was presented with the medal by the Canadian cabinet minister, Hon. E. D. Howe.

The medal is backed up to a silver key. On the back of the medal, Spr. Kennedy's name and number. On the front is a picture of the famous rock in the background with a rock miner holding his air drill in the foreground. The words Royal Canadian Engineers are written in a semi-circle along the bottom.

one day in seven. Constable Antle was told to work out his own time schedule. During his day off the services of an R.C.M.P. at Blaimore will always be on call. Fire lengths of fire hose were reported in bad condition. Fire Chief Antle was authorized to secure replacement.

The town relief recipients will be able to have a joyous Christmas once again. Council authorized that all receive Christmas hampers which will include "turkey and everything".

Coal Prices To Rise 10 To 65 Cents Per Ton Starting Dec. 1

Bituminous Mines Allowed
50 Cents; Drumheller 65.

OTTAWA, Nov. 30.—The prices board announced tonight increases ranging from 10 to 65 cents per ton of coal produced in certain areas of Alberta and British Columbia have been authorized by E. J. Brunning, its coal administrator.

The board said the increased prices are the result of decisions which investigated the recent coal mining labor dispute in those areas, and have been determined as directed by the government.

(In brief, the commission recommended wage increases of \$1 a day to 8,500 miners in the Alberta and British Columbia coal fields. The men had been on strike for increases of \$2 a day.)

The increases are subject to review at any time, but the order stipulates they must be reviewed not later than March 31, 1944.

Gets 50-Cent Boost
Members of the Western Canadian Bituminous Coal Miners' Association may raise prices by 50 cents per ton for coal shipped from Dec. 1 to March 31, 1944, inclusive. The increase after April 1 will be 40 cents instead of 50 cents, or such other amount as may be authorized.

Minister Of Health Replies to Mayor Antrobus' Letter

Dear Mr. Mayor:

I received your letter regarding the travelling x-ray unit. I have left it to the Director of our Tuberculosis Service, Dr. Baker, to outline the work of this unit. I am not sure whether he has the Pass on his list for this year or not. However, I shall forward your letter to him and ask him to reply direct.

Hoping he can arrange to visit your Town in the near future, I remain

Yours truly,
W. W. Cross,
MINISTER OF HEALTH

Sports' Association Calls on Wage Earners to Become Members

Join Now so that They May
Enjoy Benefits of Association;
Skating and Curling to be
Supported this Winter

Coleman Community Sports' Association is calling upon all wage earners in the mines, stores and lumber camps who are still not members of the Association to take out membership as soon as possible and so make themselves eligible for all association benefits.

A very large majority of wage earners are members but there are a few who intend becoming members but up to the present have overlooked paying their dues.

The arena will be opened as soon as weather permits. Those who are members, along with members of their family, will enjoy the benefits of the association, in reduced skating and curling fees. Those who are not members will have to pay full price for all their sports' pleasure. The fees are low, heed the appeal of the association, become a member now. Contact either Frank Aboussafy or Wm. Gatehouse if they will accept your association fee.

JOE ZAK NOW-IN TORONTO

Joe Zak, newly arrived back in Canada on the hospital ship, Lady Nelson, has written his parents advising them that he has been detained at Toronto. He states he will try hard to get home for Christmas.

WOODEN SCREENS PLACED ON DRAINAGE PIPES

Town foreman, Joe Malanchuk and his workmen have been busy this week placing wooden screens at the entrances of many large drainage pipes. The screens serve the two-fold purpose of keeping debris out of the pipes and also prevent the dangerous practice of youngsters crawling through them.

after investigation.

Members of the Drumheller, Alberta, Coal Operators Association may increase their prices by 65 cents a ton for lump and egg coal shipped between Dec. 1 and March 31, and after that date the increase will be 50 cents.

The price of stoker, nut and nut pea slack coal may be increased by 25 cents per ton on shipments after Dec. 1, and on slack coal the increase will be 10 cents per ton.

The board's announcement said coal dealers are entitled to the increases actually charged them, but not to any additional mark-up.

Must Show Cost

Coal mine operators of Alberta and British Columbia, other than those mentioned in the order, may apply in writing to the coal administrator for assistance, on or before Dec. 31. They must give all information required by the administrator.

If the administrator decides an increase is required, he may designate the operators affected and the additional amounts which they may charge on deliveries of their coal.

The board said all operators authorized to increase the selling price of coal must forward financial and operating statements to the administrator promptly.

Few Names Have Been Received by Ladies Auxiliary

Failure to Register Names of
Those Persons Based in
Dominion Penalizes Them from
Receiving Christmas Parcel

It is remarkable how lax the public can be at times. On numerous occasions the Ladies Auxiliary of the Canadian Legion have sent out an appeal for names of persons in the Armed Forces based in Canada in order that they may carry out their "wage" work.

To-date, three days after the deadline, they have received only a few names to whom to send Christmas parcels. It isn't fair to the Auxiliary and it isn't fair to the boys and girls in uniform. Failure to receive a boy or girl's address simply means the Auxiliary is unable to send a Christmas parcel.

Surely it is not asking too much for parents, wives, sweethearts or friends to give the Auxiliary the name and address of a son, boy or girl in the armed forces based in Canada. Time is short, send in the address today. The Journal will receive the addresses and hand them in to Mr. Lonsbury, Auxiliary secretary.

Coleman's Soldiers Overseas Receive Handsome Gift

Welfare Fund and Miners' Union Send 600 Cigarettes
Between Them; Christmas
Message Also Sent

A worthwhile gift is on its way to all Coleman men serving in the armed forces overseas. This Christmas, as in the past, that Overseas Welfare Committee and the Miners' union have combined to send 600 cigarettes to every Coleman man whether he be in Britain, North Africa or Italy.

The Welfare Fund Committee have sent each man a Christmas letter wishing them the season's greetings and the hope for a quick successful conclusion to the war and a safe journey home.

While all local men overseas are sent their monthly parcel of cigarettes not all of them are acknowledging receipt of same and the opportunity has been taken to mention this in the Christmas letter. The Committee asks all to acknowledge receipt of their cigarettes each month in order that a better check can be had on cigarette deliveries.

ANNOUNCEMENT

Mr. and Mrs. L. Neilson announce the marriage of their youngest daughter, Esther, to Roy F. Cain, jr., U.S. navy, only son of Mr. and Mrs. Roy F. Cain, of Fort Worth, Texas. They were married by the chaplain, A. M. Oliver, of the naval air station, Seattle, Washington, where the groom is stationed.

The young couple spent their honeymoon at Victoria and Vancouver, B.C. On arriving at Vancouver they were given a reception by Mrs. Cain's sister, Mrs. Verney Lott. Twenty-four guests, mostly former Colemanites, were in attendance.

LOADING PLATFORM TO BE BUILT AT STATION

Mr. Pettifor, local agent, has informed The Journal that his company plans on building a loading platform at the local depot. A company official visited here recently and the matter was brought to his attention. An engineer will be sent to plan the platform and work will start soon after.

Council Takes Action For Game Warden

Write E. O. Duke, M.L.A. to Use
His Influence Towards Getting
Game Warden Here.

The agitation started some time ago by local sportsmen to have a game warden stationed permanently in the Pass has received the strong support of Coleman town council.

The council has written a letter to E. O. Duke, M.L.A., pointing out the illegal activities of a number of Pass hunters and asking him to use his influence with Edmonton to have a game warden stationed permanently in the Pass.

Following is the council's letter:

Dear Mr. Duke:
At our last council meeting, I was asked to write to you, to try to point out the need for a fish and game warden in the Crows' Nest Pass Forest Reserve and adjacent areas. We really are at a loss to understand why Mr. Cardinal was removed from this district. We believe we are safe in saying that there are more hunters and fishermen here per capita than any other area of its size in the province. Big game and bird game are taken at all seasons of the year. Bag limits are totally ignored, especially deer. Although Sunday shooting is prohibited there is more shooting on Sundays than any other day of the week, and we are of the opinion that restrictions should be abolished or else enforced. Most teen-aged boys own a 22 rifle, and instances are not uncommon to find where deer and other big game are shot at, wounded and often die. Many moose are killed, although there has been no open season in effect for many years. Sheep are very scarce in the south end of the area, but ranged in large number 10 to 12 years ago, which is caused, we believe, by killing ewes and young. Closed streams are all fished in this district, in season and out of season.

We thank you for past favors, and we know we can rely upon you trying to get a fish and game warden stationed here.

Yours truly,
G. Lees, Sec.-Treas.

"Coal Face" Comes to Palace Theatre Dec 15, 16, 17

Plays Blaimore and Bellevue
Starting Dec. 4; Shows Local
Scenes.

"Coal Face," the mining town picture all have been waiting to see has finally arrived at the Pass theatre and will be shown for the first time at Blaimore on Saturday, Dec. 4 and continue to Dec. 7. It then plays Cole's theatre, Bellevue, Wednesday to Friday, Dec. 8 to 10, and then comes to the Palace on Wednesday, Thursday and Friday, Dec. 15 to 17.

Many Pass citizens saw scenes "shot" in Coleman and Blaimore and have waited patiently on the picture arriving in the Pass. Scenes also shown are in Nova Scotia, Drumheller and Nanaimo, B.C. There are a number of Pass citizens who took part in the picture and they particularly will want to see it.

ARRIVE OVERSEAS

Mr. and Mrs. T. E. Flynn and Mr. and Mrs. Walter Dibbale have been word of the safe arrival of Stoker Tom Flynn jr. and Walter Dibbale jr. overseas.

COLEMAN COMMUNITY SPORTS' ASSOCIATION

Join The Association Now! ENJOY ITS BENEFITS!

Any wage earner who is not yet a member of the Coleman Community Sports Association is urged to take out membership now. By so doing he will be able to derive the full benefits of the association. Membership can be secured by contacting either Frank Aboussafy or Wm. Gatehouse.

Signed—SPORTS' COMMITTEE

Inspector Asked To Examine School Boiler

Resolution from Local A.T.A.
Resure fire of Board, Russians
Refused Class Room.

Regular meeting of the school board was held in the Board room on Tuesday evening. Present: Chairman Evans, Trustees Holly, Smol and Stiger.

A letter was received from Mrs. Gordon Milley asking that her name be placed on the substitute teachers' list. Request was granted.

The boiler at Central school caused some trouble one day during November and might have resulted in serious damage had it not been for the watchful eye of Principal Hoyle and the quick work of Engineer Antrobus. The trouble has since been repaired and a report received by the Board. A copy of the report has been sent to provincial boiler inspecting. It is with the request that it come and examine the boiler at its earliest convenience.

A letter was received from the local Russian Federation asking the Board's permission to grant a classroom twice a week. Thirty pupils would be present at the classes. Similar requests have been received by the Board at various intervals each being turned down on the grounds that a janitor was needed to supervise and clean-up after the classes were over. Another argument put up against the request that if a class room was given to one organization, the same privileges would seek the same organization and would rightly expect to be granted same. The Russian request was respectfully turned down.

Board was told that Miss Helen Dibbale had arrived back from the coast and it was expected that she would start her teaching duties on Wednesday, Dec. 1.

The \$10 cheque granted by the Board to help defray expenses of a free show for the youngsters had not been used and the money was to be returned to the school funds.

Principal Hoyle asked that some necessary repairs be done to his home which is owned by the school district. Works & Property committee was authorized to make an inspection with power to act.

A resolution dealing with a matter in the girls' basement was received by the board from the local A.T.A. The resolution roused the ire of the board who stated nothing would be done in the matter until the A.T.A. appointed a committee to come and meet them. A letter to this effect will be sent to the A.T.A. secretary.

Accounts passed for payment included:

To The Citizens of Coleman and District

The Honor Roll for the Town of Coleman is about to be prepared. Relatives or friends of any man or woman in His Majesty's Forces are asked to please bring their names, regardless of whether they have now been discharged, to any one of the following depots: Antrobus' Office, Town Hall, or Canadian Legion. PLEASE CO-OPERATE.

CANADIAN MAYORS PRESENT BRIEF COVERING PLANS FOR POST-WAR RECONSTRUCTION

OTTAWA.—Immediate appointment of a minister for reconstruction to whom municipalities could bring their proposals for post-war work projects, was recommended by Canadian mayors who appeared before the House of Commons reconstruction committee.

In a brief presented by the Canadian Federation of Mayors and Municipalities, supplemented by statements by mayors of various cities, the local governments asked for an early statement of government policy as to the extent of financial assistance which may be granted.

The mayors recommended there be a master plan for reconstruction, to avoid the possibility of competition between cities and provinces for post-war undertakings.

Mayor J. W. Fry of Edmonton said his city's most pressing problem is housing. This also would be a major concern in the post-war period. While reconstruction was mainly a task for senior governments, the municipalities had a part to play. Edmonton taxes were high and reserves for post-war works had been built up.

Mayor H. Nicholson of Estevan, Sask., said the lignite field near his town might be used more extensively for power production. A Souris Valley irrigation project could give work to many after the war.

Mayor S. M. McEachern of Saskatoon said the west is anxious to get back young people who had left for war industry jobs. This led to the hope there would be factories for processing wool, leather, glue and the like in western Canada. The Dominion should set up a financial agency to assist the setting up of such industries.

"Thousands could be employed by irrigation projects along the North Saskatchewan river," he suggested.

Municipalities financial resources are "wholly inadequate" for any large-scale post-war public works such as will probably be required, the federation said in the brief presented to

the House of Commons reconstruction committee.

The federal government should be ready to extend loans to municipalities for projects planned, with payment of the full cost in some cases. Government intentions respecting such assistance should be made known soon.

"We are convinced that a full-scale attack on the housing problem is by all odds the ranking A1 priority for the tasks of peace," the brief continued.

A "bold national policy" should be adopted for rehousing low-income groups at acceptable minimum standards, as a co-operative undertaking among federal, provincial and local governments and private enterprise.

Municipal authorities should consider reducing the rate of taxation on building and the corresponding increase of such rates on land so as to lower the tax burden on home owners and the occupants of low-rent homes, and to stimulate rehabilitation of blighted areas and slums.

EXPENDITURE LOW

In Connection With Sale Of Fifth Victory Loan Bonds

OTTAWA.—Finance Minister Iley said he has "very good expectations" that the cost of selling Fifth Victory loan bonds will not exceed 87 cents for each \$100 of the loan issued.

This figure compares with about 90 cents for the Fourth Victory loan last spring, and an average of about \$1 for each \$100 worth of bonds sold in all five victory loans. The \$1 includes "all expenditures for preparation and delivery of the bonds, advertising and publicity, salesmen's commissions and all payments to financial firms and institutions, organization expenses, etc."

Be a partner in the crusade to wipe out tuberculosis. Buy Christmas Bonds today generously and use them on all your mail.

A DIVERGENCE OF OPINION AS TO WHETHER ENEMY CAN BE DEFEATED BY BOMBING TACTICS

LONDON.—The bomber's show-down bid for out and cut victory in the battle of Berlin found ground officers pulling as hard as anyone for the world's first major victory through air power—but these men who must plan and lead an invasion from the west are keeping their fingers firmly crossed.

"Bombing, plus Russia's magnificent victories, may crush Germany before any great battle in the west," said one highly-ranked American officer. "But it would be criminal if these hopes led me to relax for one moment on the job that's been given to me in preparing for invasion, and it would be tragic if they led to any further over-confidence on the home front."

There is divergence of opinion among ground force leaders on the airman's chances to shatter Germany sufficiently to bring surrender, but those who think first in terms of land battles seem agreed that:

1. If such an economic victory is won it must be won by smashing the German will to fight and not by physical destruction of the means to make war, because the latter can-

not become great enough to break the German army in the time remaining before the invasion deadline.

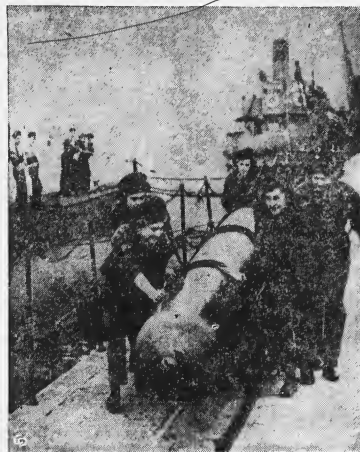

2. There is a definite danger that the immediate value of these unprecedented, spectacular blows deep inside Nazism may be exaggerated in the public mind and breed over-confidence which would react badly on the war effort.

An important British officer who knew the German heavy attacks on Britain in the winter of 1940-41 was inclined to discount the chances of smashing morale so that the Germans would revolt and sue for peace. He said:

"Unless that will to fight were broken, it would not have any decisive effect even if Berlin were bombed so badly it had to be abandoned."

"There would be dislocations of records and communications, of course. Men's pay and pensions and promotions might get mixed up, but it wouldn't paralyze operations, particularly since the German high command must have made extensive preparations to meet just such an emergency."

Wrens Handle "Tin Fish"

Working on torpedo maintenance, a job which formerly was carried out by men now fighting, are British Wrens. They are shown wheeling a torpedo out for loading into a submarine, shortly to leave on patrol.

IN JUTLAND AREA

Germany Orders Troops To Be On Alert Against Invasion

STOCKHOLM.—The Germans have placed the entire Jutland territory of Denmark—one of the shortest routes from Britain to Berlin—in a state of military alarm and were reported to have massed 250,000 men there in anticipation of an Allied invasion.

The Danish press service said orders have been given German troops to be on the alert and prepared to defend the peninsula. The Germans have an important airfield for fighter defence in the area.

A confidential memorandum has been issued by Danish department heads to civil servants, the press service said, reporting that German forces will be still further reinforced and fortification work speeded.

NEEDED AFTER WAR

TORONTO.—Lord Woolton, Britain's food minister, has asked that shipments of powdered milk, sent overseas by Canadian Kinross's clubs, be continued after the war, a club spokesman said here. It would be Vactaw Bones, 58-year-old manager of the Shoda munitions works, had died in Prague.

MANY HONORED

Decorations Conferred On One Hundred And Twelve Canadians At Rideau Hall

OTTAWA.—The governor-general recently conferred previously announced decorations on 112 persons at Rideau Hall.

Senior officers of the armed services, high-ranking executives in munition production, scientists who have accomplished things in research which are still deep official secrets, and airmen who have shown bravery in the face of the enemy, veteran civil servants and leaders in philanthropy, agriculture and educational fields were among those who stepped before His Excellency as their names were called.

A number of women were included in those honored.

Most of the awards were announced in the King's birthday honors list last June.

MANAGER OF MUNITION WORKS

NEW YORK.—The German-controlled Czech radio reported that Vactaw Bones, 58-year-old manager of the Shoda munitions works, had died in Prague.

Allied Chiefs Meet In Conference

Present at a conference of Allied chiefs of staff in North Africa were these ranking men on land, on sea and in the air. Left to right, Admiral Sir John Cunningham, commander-in-chief of the Allied fleet in the Mediterranean; General Dwight D. Eisenhower, commander-in-chief of Allied forces in that theatre, and Air Chief Marshal Sir Arthur Tedder.

CANADA'S WHEAT ACREAGE IS EXPECTED TO BE INCREASED AS RESULT OF WIDER MARKETS

OTTAWA.—Canada's wheat acreage can be expected to increase during 1944, reversing the wartime trend, as a result of higher prices and expanding markets for surplus production, the Dominion bureau of statistics said.

It will be early December before the 1944 acreage objectives are made public, said the bureau's monthly review of the wheat situation.

Canada is "likely to be a heavy shipper of wheat to the United States in the current crop year," it said, and the question of Canadian wheat acreage will top the agenda at the forthcoming Dominion provincial conference on production objectives.

The bureau said only moderate success attended efforts in other countries to reverse wheat acreage policy from contraction to expansion in the coming season.

Both the United States and Argentine agricultural authorities encouraged increased wheat acreage this year, but in Argentina the plantings were actually smaller, while in the United States the winter wheat

acreage for next year's harvest is below expectation," it reported.

There is still the United States spring wheat area to be reckoned with in fulfillment of the 1944 acreage goal, but it is considered doubtful that sufficient expansion of spring wheat plants will take place to make up the leeway indicated at the present time.

A year ago the emphasis was on wheat acreage reduction in both the United States and Canada. At that time stocks of surplus wheat were enormous and efforts were being made to produce feed grains and oil-bearing seeds. Since then diversion of wheat to non-food use has been quite extensive, particularly in the United States. This, together with the expectation of some increase in relief shipments of cereal grains to Europe, has caused an "about-face".

The wheat surplus in Canada is still very substantial and there are quite considerable stocks in Argentina and Australia available for export, but the rapid disappearance of wheat in non-food channels is a factor of importance.

INTERNATIONAL CONFERENCE ON FOOD CONSUMPTION LEVELS HAS FINISHED INTENSIVE STUDY

OTTAWA.—The international conference on food consumption levels, attended by statistical and food experts from Britain, the United States and Canada, has concluded several weeks of study here. It was announced by H. F. Angus of the external affairs department, the chairman.

The conference report, after further studies by some of its committees, will be submitted to the combined food board at Washington.

The object of the session was to reach an accurate basis for comparing the food consumption levels of different nations having different customs, different types of production and different methods of distribution with a view to assisting in allocation of food supplies by the board during the war and post-war periods.

"It is, therefore, hoped that a basis has been prepared for continuing work which will have considerable influence on projects of social security after the war as well as for policy during the war," said a statement from the conference.

The conference, the statement said, by some persons.

replaced the former rough-and-ready method of comparisons between official ration allowances, which had the fault of not taking into account the amount of unrationed food consumed and the amount of rationed foods eaten in public places.

The method chosen was to estimate the whole food supply available to a country. But such estimates presented difficulties in taking into account home-consumed fish and game and food produced in victory and other home gardens which never appears in public statistics.

The total food supply before being used for comparison was translated into its equivalent in calories and vitamins and allowances were made for inefficiency and waste in consumption and distribution.

The attractiveness of the food and the manner in which it was presented were also taken into account for the conference acted on the view that with a monotonous diet people tend to eat less than enough and if the diet is particularly attractive waste results from excessive consumption by some persons.

MUST BE PLANNED

No Speedy Settlement Of Northern Areas Should Be Expected

EDMONTON.—It's an error to expect a "great rush of population in the north," Dr. Charles Cammell, deputy minister of mines and resources, told provincial and civic officials in a luncheon address here.

Chairman of the North-Pacific planning project, Dr. Cammell said it is necessary to establish the economic value of the north before any population rush is started, and that is one of the main aims of the commission.

Much of the area potentially is a mining region and it is on this phase the region must depend for its initial development.

The average Lapp family requires 100 reindeer for its maintenance.

GRANTED ENTRY

Girl Stowaway In Lancaster Bomber Will Stay In Canada

OTTAWA.—Margaret Drury, 24-year-old Lancashire girl and first east-to-west Atlantic air stowaway, has been granted entry to Canada for six months to work with the R.A.F. transport command.

The announcement, made by A. L. Joliffe, commissioner of immigration, said Miss Drury had expressed a wish to accept such employment. Her case will be reviewed again at the end of the six-month period.

BIG HONEY CROP

TORONTO.—Canada's 1943 honey crop totalled 31,000,000 pounds, largest since 1938 when a record yield of 38,000,000 pounds was recorded, it was reported at the 64th annual convention of the Ontario Beekeepers' Association.

DUKE OF GLOUCESTER NAMED AUSTRALIA'S GOVERNOR-GENERAL

The Duke and Duchess of Gloucester with their only son, Prince Henry, who will be two years old in January.

The residence of the governor-general of Australia at Canberra, which will be occupied by their royal highness the Duke and Duchess of Gloucester next July. The duke has just been appointed governor-general of the commonwealth and succeeds Lord Gowrie, the present occupant.

The Duke of Gloucester, youngest surviving brother of the King.

NOTES AND COMMENTS

Compensation and the Old Age Pension

On Monday night at the council meeting one of the unfair clauses in the Old Age Pension Act came to light. There is an elderly gentleman here who is in receipt of the Workmen's Compensation pension amounting to \$359 per year. His wife, eligible for the pension, was penalized due to the husband receiving the Workmen's Compensation pension and was given only \$15 plus the supplementary \$5 cheque instead of the \$25 plus the \$5. The husband is now on the verge of reaching his 70th birthday. He is now eligible for the full pension of \$30 per month, which will give him an extra 40 cents above his present income. The wife, however, will benefit, as she should now be eligible for the full pension, which will give her an extra \$120 per year. According to the debate at the council table, that 40 cents deprived the aged lady of \$120 of much needed income.

Councils Lends Its Support for Game Warden

Council has now entered the arena as the fight continues on the part of Coleman sportsmen to get a game warden stationed permanently in the Pass. It has ascertained the facts, such as illegal hunting and fishing in this district, and sent them in a letter to E. O. Duke, M.L.A.

Agitation some time ago brought the game warden stationed at Lethbridge to the Pass. He sized up the local situation and we presume sent a report to Edmonton, but to date nothing has been done to station a game warden in one of the Pass towns where he would be close to his work and be in a better position to find out who was guilty of illegal hunting and fishing.

It is only fair to Pass sportsmen and to game in this district that someone be sent here to supervise, and the sooner the better.

The Liquor Question

Did Ottawa and the provincial governments give the liquor question the study it warranted? Witnessing policemen keeping a long line of men and women in order as they seek to get their December quotas leads one to believe that they did not. Undoubtedly more women hold liquor permits today than ever before, which certainly is not to the credit of the liquor officials.

In the bar, before beer rationing came into effect, men were accustomed to go more for conversation with friends than to consume beer. Today that has changed. Many now go into the bar with the full intention of drinking as much beer as possible, the social side being only of secondary importance.

Beer is not so important to the war effort. Let the working man get his beer when he wants it. The large majority are conservative drinkers. He is very much in the war effort as he turns out daily the materials of war and pays heavy taxes. He should be considered every bit as much as the other fellow.

Little Co-operation Given Local Organizations

Why is it that Coleman citizens will not stir themselves to co-operate with local organizations even though it may mean benefit to a family member of a friend? During the past few weeks one organization asked for names of local citizens in the armed forces and based in the Dominion in order that Christmas parcels be sent to them. Few names were received although depots were placed throughout town for citizens' convenience.

Another organization asked for names of all Coleman persons in the armed forces in order that an honor roll may be prepared. Few names again secured. However, if some miss their parcels or someone is left off the honor roll there will be people who will make quite a noise because of that omission. Let's all co-operate in these requests.

Need For a Debating Society

There is one society that all towns, regardless of size, could profit from, and that is a debating society. Today we hear of post-war reconstruction, the Beveridge Report, the CCF and Social Credit doctrines, plans of the Progressive-Conservative party, and a host of other topics pertaining to the peace of Europe after the war. The large majority of the public read about them, but not all understand them. If competent debaters were brought on the stage from time to time and allowed to debate various pertinent topics of the day, many people would become more enlightened on a number of subjects, and in the case of politics would be in a position to vote more intelligently.

That Big News Break

There were undoubtedly some "cussing" done on Wednesday evening when the "big" news break that had been so widely publicized for days before proved only to be the meeting of the Allied leaders. Axis reports had been telling us for days that the meeting was taking place and even a news agency in the States gave it on a news broadcast on Tuesday.

ST. JOHN AMBULANCE TO SPONSOR NEW YEAR'S DANCE

Coleman branch of St. John Ambulance Association will again sponsor the annual New Year's Eve dance. Arrangements are already being made and it is expected that membership tickets, which allow one into the dance free will be distributed next week.

The community hall has been engaged. There will be two door prizes of \$5 war savings certificates. The Coleman Lions have been granted permission to raffle their child's playhouse, the proceeds from which are aiding Jimmie Chalmers to secure medical treatment at a Toronto hospital. This draw will probably take place shortly before midnight.

Secretary J. M. Rushton is endeavoring to obtain confetti, streamers, noise-makers and all that helps make for a joyous and successful dance.

...V...
FREDA ANTROBUS
SANG MONDAY

Freda Antrobus and Mary Palmer were heard on the CBC network from Toronto on a half-hour program on Monday afternoon. Reception was fairly good and many Pass citizens enjoyed the program.

Mrs. Antrobus received on Wednesday morning a recording of Freda's songs heard on the first program of York Knitting Mills. Unfortunately the record was slightly cracked when it arrived here, but is nevertheless playable.

Spr. Kennedy Spent Furlough At Cowdenbeath

Mrs. E. R. Kennedy is in receipt of a letter from her husband who is a member of the Canadian Army overseas. He spent his last furlough at Cowdenbeath, Fifeshire, Scotland, the guest of Mrs. Dave Gardiner and family, formerly of Coleman. Spr. Kennedy speaks highly of the warm welcome given him by the Gardiners who wish to be remembered to all their Coleman friends.

THE DEPARTMENT OF MUNITIONS AND SUPPLY

HON. C. D. HOWE, Minister

LOCAL NEWS

Mr. Nick, Nicholas was a recent Calgary business visitor.

Peter Bakaj, RCAF, spent the week end visiting his mother.

Miss Julia Golia, of Bracket, is the guest of Miss Louise Aldoff.

Born: To Mr. and Mrs. J. Cytko on Monday, Nov. 22, a daughter.

Miss Agnes Kamik has been employed as a clerk at Holy's Grocery.

Mrs. J. Moore left last week for the States, where she will visit her daughters.

Mr. and Mrs. Louis Destobel and family have left Coleman and are now residing at Coalhurst.

Joe Vican, of Fernie, spent a few days here with his sister, Mrs. Frank Kovan, and Mr. Kovan.

The beautiful doll raffled by the Catholic Girls' Club was won by Margaret Hunter, of Sentinel.

Able Seaman Douglas Jenkins is home this week visiting his father and other members of his family.

Mr. and Mrs. Nick Milo have returned home after spending a few weeks at Drumheller and Edmonton.

Mr. and Mrs. William Short and baby left on Wednesday for Lethbridge, where they will take up residence.

John Kanik, RCAF, of Claresholm, spent a few days here recently the guest of Mr. and Mrs. Steve Vasek.

Polly Owsowski RCAF (WD) at Calgary, spent a few days' furlough here visiting her mother, Mrs. Joe Sikora.

Coleman citizens granted naturalization according to the Canadian Gazette include Orazio and Rosa Celli and John Nimcan.

Pte. Dorothy Gate had the misfortune to sprain her ankle recently, causing her to be a patient in the Belcher hospital for a week.

The Journal acknowledges with thanks the renewal subscription received on Wednesday morning from Mr. Tom Badham, Calgary.

Prize winners at the Rebekah whist drive on Tuesday evening were Mr. William Cousins, Mrs. Elvono Fontana and Mrs. Jack Rogers.

Mr. and Mrs. T. Servello and daughter, of Fernie, spent a few days here the guests of Mrs. Servello's parents, Mr. and Mrs. J. Spievak.

LAW May Ramsay, of Claresholm, was the week-end guest of her parents, Mr. and Mrs. John Ramsay. She had as her guest LAW June Miller, also based at Claresholm.

Rev. Leo Sullivan motored to Edmonton last week, where he attended the funeral of the late Father Ryan. Accompanying him home was his brother, Rev. Joseph Sullivan, of the Edmonton diocese.

Petty Officer and Mrs. Elton Hutton and young daughter are visiting the former's mother in Lethbridge before he leaves for his eastern Canadian base at the end of the week.

Mrs. Douglas Taylor, of Calgary, and Mrs. Harry Tieson, of Vancouver, are the guests of their mother, Mrs. Stewart Milley. Mr. John Milley, of Queen Charlotte Islands, B.C., is expected home shortly.

WEDDINGS

HRUBY-KUPCZAK

A quiet and beautiful wedding was solemnized at the Holy Ghost church when Emily, second daughter of Mr. and Mrs. Mike Kupczak, of east Coleman, became the bride of Martin, eldest son of Mr. and Mrs. Martin Hruby, of Bellevue.

Rev. L. Sullivan officiated. The bride, entering the church on the arm of her father, looked lovely in a two-piece dress of navy with beige accessories and carry-

SPEEDING WAR PRODUCTION—Edison Mazda Lamp in action, quick-drying the paint on landmine cases in a Canadian plant.

SPEEDING the production of vital war equipment is this Edison Mazda Infra Red Drying Lamp. By drying paint and varnishes in a fraction of the normal time, it is cutting down delays in the finishing of military equipment—from tanks to steel helmets, from landmine cases to ammunition boxes. On duty in the war plants today, Infra Red Drying Lamps will find many peacetime uses—in paintshops and foundries, in the homes and on the farms.

Fighting Canada's Battles In Northern Manitoba And Saskatchewan Bushlands

(By J. P. De Wet, Secretary, Manitoba Chamber of Mines)

An interesting story of the great Flin Flon Mine.
(Continued from Last Week)

To understand the difficulties of processing the ore to recover the seven metals contained therein, one should first have a knowledge of the composition of the Flin Flon ore. The metals, in general, are not contained in pure form, but appear as compounds intimately mixed and finely divided in the same rock. The copper occurs as a combination of copper iron and sulphur, a sulphide known to the miner as chalcocite. The zinc also occurs as a sulphide with the name sphalerite. Another mineral in the ore is the sulphide pyrite, a combination of iron and sulphur. The other metals in the ore such as gold, silver, cadmium, selenium and tellurium are in smaller quantities as compounds, although some of the gold occurs in a pure state but in extremely fine particles in close combination with other minerals. The cadmium is most intimately associated with the zinc sulphide, while the selenium and tellurium in combination with gold and silver associate mostly with the copper sulphide.

6,000 Tons Of Ore Raised Every Day

Although the mine and metallurgical plants were originally designed to produce and treat 3,000 tons of ore per day, the tonnage increased. It can be made up only if sufficient labor is available. After the ore is hoisted to the surface it is ground to a fine powder. To get an idea of how fine the Flin Flon ore is ground, take a piece of woven silk one square inch in size, and with the finest needle you can procure poke 325 separate and distinct holes in it. The greater portion of the Flin Flon ore is ground fine enough to pass through those tiny holes. Water is added during grinding.

Frothy Bubbles Float Minerals

The next step is selective flotation. In this process a froth like soap bubbles is created by adding oils to the water carrying the finely ground ore and mechanically agitating it while air is being blown in. By the use of different chemicals added to this mixture, the copper sulphide mineral particles will attach themselves to the bubbles to be floated off as a copper concentrate and by changing the chemicals added, the zinc sulphide particles can be floated off as a zinc concentrate. This ability to select by a change of chemicals the material to be floated explains the phrase selective flotation. It not

only segregates the minerals from one another for further treatment but eliminates a large part of the material of no commercial value from the ore, known as gangue.

Method Of Refining Zinc

The zinc concentrates go first to roasters where the excess sulphur is burned off and the zinc changed to a soluble form. This product is next passed into tanks where the zinc is dissolved by acid treatment. The solution is purified in the purification section of the plant, and then from the purified solution the zinc is plated on a metal cathode sheet by passing an electric current through the solution. The zinc next is stripped from the cathode sheet and melted in a furnace, and cast into slabs to be shipped to the war factories. This zinc is almost pure, much of it running 99.99% purity. This purity is essential when the zinc is to be alloyed with certain other metals for the purpose of making die castings of aeroplane parts and other war equipment, which require little or no machining. Its purity thus saves many hours of effort.

There Is No Wartime Profiteering In Metals

The prices paid for strategic metals used for war purposes, and for certain civilian uses during war, are fixed by the interested Governments. Consequently there can be no profiteering on the part of those who produce them. Compared to the last war when the price of copper went as high as 35 cents per pound, the present agreed upon price is less than one-third, so that the mining companies can say with justice that they have contributed their share to the war effort.

During 1942 Hudson Bay Mining and Smelting Co., Limited, employed an average of 2,006 persons. This gives the reader an idea of the size of the operation.

Well Paid Men—Steady Work

The worker at Flin Flon has one of the best paid occupations in the land. He works an eight-hour day and a forty-eight-hour week. For every hour over the 48 that he works, the rate is time and a half. Efficiency is well rewarded at Flin Flon, for the management is anxious to train and keep competent workers on the payroll. A boy showing promise and ability may start as an apprentice and, as explained later, is paid from the date of commencement of his apprenticeship. Ahead of him lies a job for the rest of his life with the chance of becoming a shift boss, or attaining to even higher positions, and retiring when he reaches later life on an annuity derived from equal contributions deposited by himself and the Company with the Annuities Branch of the Dominion Government, where interest rates on the accumulating fund are figured at 4%, compounded annually.

Annuities And Retirement Plans

The Company instituted the annuity plan in 1940 as part of a "Welfare Plan" to provide against the following contingencies: insecurity in old age, death, and loss of pay through non-occupational sickness and accidents. The first contingency is covered by the old age retirement annuity plan, to which the Company contributes one half of the cost; the second by a group life insurance plan, the cost of which the Company pays in full; and the third by group sickness and non-occupational accident insurance, to which Company and employee pay in equal amounts. Accidents that occur while at work are covered by the Workmen's Compensation Boards of Manitoba and Saskatchewan.

(To Be Continued)

The Hindus, not the Arabs, are said to be the authors of the Arabic system of arithmetical notation.

WORLD HAPPENINGS BRIEFLY TOLD

On direct orders from Prime Minister Churchill, Britain's street lighting systems, run down from lack of use because of the blackout, are being overhauled in preparation for the first night of victory.

It is stated that 10,000 Norwegians have escaped to Britain since their country was occupied by the Germans. Seventy-five per cent. of the Norwegian air force consists of escapees.

Heat was not turned on at Buckingham Palace until Nov. 1, ten days after the date set for the rest of Great Britain.

Moscow has opened a new subway, a four-mile line running under the Moscow river and linking the centre of the city with the eastern industrial section.

In the 12 months to Aug. 31, nearly 8,000 men and 1,690 women were prosecuted in Britain for being absent or being persistently late for work without reasonable excuse.

During the present war, 13,896 churches and other ecclesiastical buildings in Britain have been destroyed or damaged.

Germany now has nearly 2,000 day and night fighter planes massed to protect her centres of production, R.A.F. Squadron Leader John Strachey said in a BBC war commentary.

The British Ministry of Supply has gone into the rapackling business. Helpers have collected and reconditioned more than 2,000,000 worn garments from the army, air force and women's services.

Oliver Lyttelton, British Minister of Production, said that Britain is studying equipment and transport needed "to bring the maximum impact to bear on the Japanese."

Adorably Yours

Adorably yours is this princess frock embroidered with your own name or initials. (Initial transfer sheet included.) Cut the simple pattern of fabric-saving Pattern 4567 from a few yards of rayon and whip together in jig-time to wear at desk or dating.

Pattern 4567 is available in junior miss sizes 11, 12, 13, 14, 15, 16, 17 and 18. Size 13 takes 3 1/4 yards 35-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

SUNDAY SCHOOL LESSON DECEMBER 5

THE SIN OF COVETOUSNESS

Golden text: Thou shalt not covet... anything that is thy neighbor's. Exodus 20:17.
Lesson: Exodus 20:17; Luke 12:13-34.
Devotional Reading: Luke 18:18-27.

Explanations and Comments

The Law Against Covetousness, Exodus 20:17. There is sin in the desire of something that belongs to another. The Tenth Commandment differs from all the others in that it has to do with a man's relation to himself, his inmost thoughts, rather than being a law against acts, it directs man to control impulses which may lead to acts. It legislates for the control of thoughts and desires. Keep thy heart with all diligence, for out of it are the issues of life. Proverbs 4:23.

The commandment specifies objects which in those early days a man might covet—his neighbor's house, wife, man-servant, maid-servant, ox, ass, anything that was his neighbor's. "To wish for a house in which to live, to desire a wife to grace it, or the agents necessary to manage it, or marketable values in addition: these are helpful spurs to all heights of industry, harmful to none—even the possessors. Desire passes into evil when it becomes envious of what others hold; when it would—were the power possessed—give itself to self-gratification at another's cost." (Allan Poole).

Jesus' Warning Against Covetousness, Luke 12:13-15. "Teacher, bid my brother divide the inheritance with me," a man in the crowd that followed Jesus one day cried out, interrupting Jesus' talk. "Man," sternly Jesus asked, "who made me a judge or a divider over you?" thus refusing to take upon himself the duties of either the individual or the courts.

The man's interruption showed that he was too much concerned with possessions, and Jesus made use of the incident to warn his hearers against covetousness. "Covetousness" comes from a Greek word which means "grasping at more." It has been defined as the fatal temper of never being content with what one has, but always seeking a little more, according to the saying that "Enough is just a little more than what one has." "Take heed and keep yourselves from all covetousness," said Jesus; "for a man's life consisteth not in the abundance of the things which he possesseth." The true life, the spiritual life, does not depend upon riches.

ALL ON SAME BASIS

Her Majesty Queen Elizabeth was unable to make a purchase recently because she had forgotten to take along her ration book. Many a woman of lesser degree will know exactly how she felt. Incidentally it proves that this war has placed royalty on the same basis as the most humble citizen. We doubt if such a democratic spirit can be displayed in any other country but Britain.

WHOOPIING COUGH—KILLER

In the past 10 years whooping cough has killed 6,333 persons—mostly children—in Canada. A total of almost 175,000 persons are known to have suffered the disease in that period. Of these many will have recovered with impaired health.

These are the tragic facts which prompt the present campaign for immunization of children against the disease, which is much more serious than most parents appreciate. In recent years the incidence and the virulence of whooping cough have increased. It has become one of the menacing enemies of childhood.

Not only whooping cough, but diphtheria, scarlet fever and smallpox are diseases which take a pitiful toll of Canadian child life every year, although easily preventable.

One health authority has gone so far as to suggest that when a child dies of one of these unnecessary, preventable diseases, the parents or guardians who failed to protect it by immunization should be charged with neglect.

There is no excuse for these diseases. Physicians have access to free supplies of sera and vaccines. In the majority of Canadian communities there are public health officers who conduct free clinics. Parents should avail themselves of the simple means to protect their children.

SURPRISED OFFICIALS

Bob Rollins, an 18-year-old youth of Miniota, Man., surprised recruiting officials at the Fort Osborne barracks reception depot in Winnipeg when applying for enlistment in the army. Bob, six feet, 10-inches tall and tipping the scales at 216 pounds, was so tall he bent his knees when taking his X-ray test.

The grandest of all old Christmas traditions is Christmas Seals. Every Christmas Seal you buy helps to save lives. Use your Seals on every Christmas card and letter you send this year.

The Germans' slowness in their retreats from some of the towns in Italy may be due to the heavy loads of loot they are carrying.

This is Birchview School at Flin Flon. Very modern.

mined and treated has been raised to the present figure of 6,000 tons in direct response to a request from the Canadian Government that maximum production be achieved in order to help the country's war effort. It may be pointed out, in passing, that this remarkable feat has been accomplished in spite of many difficulties and regardless of the fact that the Company's tax burden is tremendously

How Copper Is Refined

In Memoriam

HULBERT—In Loving Memory of our dear husband and father, Robert Hulbert, who died December 2, 1942. We often think of days gone by When we were all together. A shadow o'er our lives has cast. Our loved one gone forever. Ever remembered by his wife, daughter and grandsons.

ANNOUNCEMENT

On Monday, November 22, 1943, I took over full management of THE COLEMAN CAFE. All accounts owing the cafe will now be payable to me.

I take this opportunity of thanking patrons for past business and extend to them a hearty invitation to continue their pleasant relationship at this popular cafe.
